PROFESSIONAL EXPERIENCE

Contract Full-Stack Engineer | Amoarte LLC Art | *Connecticut* **May 2024 – Present**

- Developed a bespoke e-commerce platform that increased artist sales by 70% in 3 months
- Architected a scalable backend using Node.js, Express.js (TypeScript), and MongoDB, ensuring peak performance during high-traffic art launches
- Integrated Cloudinary for optimized image delivery, improving load times by 12%

Full-Stack Engineer | Pharstcare - *Remote, Ghana* **Jan 2023 – Oct 2023**

- Contributed to the backend development of the Pharstcare app using Python and Django, resulting in a 30% increase in transaction efficiency by optimizing the booking and medication order systems
- Collaborated with frontend team to design a responsive user interface with ReactJS and Typescript, which boosted user engagement by 25% through enhanced user experience

Software Engineering Internship | Terra - *Accra, Ghana* **May 2022 – Sep 2022**

- Created a full stack website to help the team debug email VPN service for 20 Terra employees
- Utilized AWS S3 for storage and Java Spring Boot as the backend framework, deploy the application in Docker containers on AWS EC2 instances to efficiently parse, store, and retrieve employee VPN logs
- Used ReactJS for frontend, Spring Security and Hibernate validator for backend code sanitization, JWT for authentication and authorization
- Project led to a 35% time reduction in debugging VPN logs for IT Support engineers and team

IT Assistant | *Valley View University* **Sep 2021 – Dec 2023**

- Assisted in the maintenance and monitoring of network security protocols, ensuring data integrity and protecting against potential threats
- Contributed to departmental projects, such as system upgrades, fixing school servers, and updating school websites while adhering to established guidelines and procedures

PROJECTS

Emfip LLC Ecommerce Website | *Freelancing* | [View Project](#)

- Built a fully functional eCommerce platform using Nextjs, leveraging server-side rendering for 7% faster load times and improving SEO by 20%
- Managed backend with Appwrite for secure user authentication, database management, and smooth transaction processing
- Integrated Resend API for real-time customer notifications, boosting engagement by 30%.
- Integrated Stripe to manage payment processing, enabling secure and seamless transactions for over 300 monthly customers

SKILLS AND PROFICIENCIES

Programming Languages: Java, Python, JavaScript, TypeScript, HTML & CSS; Familiar - Rust, Go, MATLAB, LaTeX

Web & Mobile Framework: SpringBoot, Express.js, Django, React, Nextjs, Vite, Angular, React Native, Flutter

Technologies: REST APIs, Web Services, SOAP, Kafka

Databases: MongoDB, PostgreSQL, MySQL, Firebase, Prism, Neon, GraphQL

Developer Tools: Git, Docker, Kubernetes, AWS, Sentry, Maven, Postman, OpenAI, StripeAPI

EDUCATION

Springfield College | *Springfield, MA, USA* | *Bachelor of Science in Computer Science* **Graduated** | *May 2024*

Relevant Coursework | Database design, Data Structures and Algorithms (C++), Object Oriented Programming (Java), Machine Learning (Python), Embedded System for Robotics (Python), Mobile Technology, Computer Architecture

CERTIFICATIONS

AWS Certified Cloud Practitioner, Kubernetes for Beginners
